

Why Upgrade to HP VEE 5.0

You already know that HP VEE is the simplest, most productive visual programming language in the world. Now with ActiveX technology and web-enabled functions, HP VEE 5.0 makes it even easier for you to accomplish your day-to-day programming tasks. With an upgrade price of up to 75% off, it's never been easier to put the power of HP VEE to work for you!

5 Reasons to Upgrade Today:

1. Easier Programming

HP VEE 5.0 can load and run [Active X Controls](#). Now you can quickly customize your HP VEE programs with bar code readers, high-speed graphics, calendars, buttons, knobs, and literally thousands of other ActiveX Controls.

2. Easier Data Interchange

With its [ActiveX Automation](#) technology, HP VEE 5.0 lets you use popular word processors for documentation, commercial spreadsheets for data analysis, and off-the-shelf database applications for archiving data. Choose what you want to use- HP VEE supports it!

3. Easier Access

With its built-in [Web Technologies](#), HP VEE 5.0 allows you to control and access instruments over the intranet or World Wide Web, making it easy to troubleshoot systems, retrieve information, and monitor test systems remotely.

4. Easier Licensing

With a new mini-site license for up to ten years, HP VEE 5.0 allows you to get bulk discounts on smaller orders, making it easier than ever to put this powerful tool in the hands of those who need it.

5. We're Easy to Reach

With an upgrade price of up to 75% off the list price, it's never been easier or more affordable to put HP VEE to work for you. Just call the HP Call Center nearest you today!
