Restricted Rights Legend

If software is for use in the performance of a U.S. Government prime contract or subcontract, Software is delivered and licensed as "Commercial computer software" as defined in DFAR 252.227-7014 (June 1995), or as a "commercial item" as defined in FAR 2.101(a) or as "Restricted computer software" as defined in FAR 52.227-19 (June 1987) or any equivalent agency regulation or contract clause.

Use, duplication or disclosure of Software is subject to Keysight Technologies' standard commercial license terms, and non-DOD Departments and Agencies of the U.S. Government will receive no greater than Restricted Rights as defined in FAR 52.227-19(c)(1-2) (June 1987). U.S. Government users will receive no greater than Limited Rights as defined in FAR 52.227-14 (June 1987) or DFAR 252.227-7015 (b)(2) (November 1995), as applicable in any technical data.

Portions of this software are licensed by third parties including open source terms and conditions.

For detail information on third party licenses, see [Notice](#).

Contents

Changing the Graph Background Color

HP VEE has many types of graphs in its Display pulldown menu: XY Trace, Strip Chart, Complex Plane, X vs Y Plot, Polar Plot, Waveform, Magnitude Spectrum, Phase Spectrum, and Magnitude vs Phase (both Polar and Smith). And the default background color of these graphs is Black.

On HP VEE 4.01 and 5.01 you can change the default background color of these graphs by selecting the File pulldown menu, Default Preferences, Colors tab, change the Screen element field to Graph Background, click on the Color Value field, and click on the desired color, like White. Click the OK button, then click the Save button to make that color the default for each work session.

On HP VEE 5.01 you can also change the default background color of each graph individually by clicking on the graph's object menu button (top left) and selecting Properties, Colors tab, click on the Display Background field, and click on the desired color, like Blue. Click the OK button, and click the next OK button to save that graph's background color into the program.
