VEE: Does VEE Support a LAN Like Ethernet?

VEE does not directly support Local Area Networks, such as Ethernet. However, VEE can control instruments that are attached to a LAN through a LAN Gateway such as the E2050A. VEE communicates with instruments through the I/O Libraries. The I/O Libraries communicate with LAN Server in the E2050A. The LAN Server transfers the commands and data to and from the instruments attached to the E2050A.
