5:03 - Meeting starts

5:03 - Talking about project update
- Same as March 4th
    - Download and Install VEE Pro (30-Day Trial)
    - Push "Hello World" VEE program to GitHub Repository
    - Record any issues or errors encountered for the next meeting

5:05 - Talking about the Meetings section on the website

5:10 - Talking about whether the external handler would be better
- External Handler would be better and easier to at least have a usable product

5:15 - Talking about Python and making sure that we have a surface level knowledge
- Make sure that we all look at Khaled's Slack message in general talking about tictactoe.py

5:17 - Talking about the Github repository and making sure people are added

5:20 - Talking about the best way to create scheduling and task management
- Possibly using Gantt chart

5:23 - Talking about the zoom meetings
- Currently keeping the same initial time and day but is subject to change

5:30 - Meeting end
