

Call globals

Function Name

globals

Set up Excel Worksheet

```
set sheet = CreateObject("Excel.Sheet").worksheets(1);  
set app = sheet.application;  
app.visible = true;  
set window = app.windows(1);  
window.caption = "Test System Results";  
sheet.cells(1,1) = "Test Value";
```

Result

Fill in Title

sheet.cells(1,1) = "DC Volts"

For Range

From 1

Thru 8

Step 1

Formula

A sheet.cells(A+2,1) = B[A+1]

B

Result

Formula

randomize(ramp(10),4.5,5.5)

Result

Formula

```
SET range = sheet.range("A2:A21");  
range.NumberFormat = "##,##00.00";  
app.worksheetFunction.average(range)
```

Result

Results Average
